The Broadway tracks near Fifty-first street were held down this morning by six nice large pieces of flagstone, while between Fifty-fourth and Fifty-fifth streets other pieces of lesser size formed a further blockade.

At 9 o'clock, as planned, the first car was started with the intention of going through to the Battery.

The woman's injuries required her immediate cemoval to a hospital.

There were ten cars out on the Broadway line at 11 o'clock.

It was proposed to send out at least twenty. The first car made the trip from the stables to the Battery and return in an hour and forty minutes.

At this time there were 225 men ready for work at the stables, some of them old employees taken back, and applications for places were plentiful.

No trouble was reported during the morning.

BLOCKADED DURING THE NIGHT.

Boulders on the Tracks of the Fortysecond Street Line.

The Boulevard branch of the Broadway oad was blockaded during the night at points between Fifty-first and Fifty-fourth

streets.

Large boulders were placed on the tracks, and there they stood this morning, massively, impassively and effectually protesting against the passage of any cars for the time being.

Belt Line People Offer \$250 Reward for the Arrest of Obstructors.

There were signs in abundance on Tenth avenue, from Fortieth street to Fifty-ninth street, this morning of the many short and sharp encounters that occurred between the police and populace along that thoroughfare

The paving stones in front of the tenement from which old Mrs. Kate Moore pelted the police with her plates, cups and saucers were literally covered with the broken chips of

china. Kate is in prison now, and the war is waged without her.

The west tracks below the Belt line depot at Fifty-third street and Tenth avenue were still covered with manure, heaps of ashes and

atones.

Among the refuse could be occasionally found a battered Derby that had been good enough to wear yesterday, until its usefulness was destroyed in some melee by a policeman's locust.

A GHASTLY REMINDER. An Evening World reporter picked up one round stone, which was covered with frozen blood, to which several patches of

frozen blood, to which several patches of iron-gray har adhered. It was a ghastly evidence of the fray.

Up above the depot the tracks were cleared of obstructions as far as Fifty-sixth street, but between there and Fifty-eighth street there were several huge blocks of stone, so big that two or three men could not move them, laid right across the tracks.

Capt. Kilblea said he would not ask his men to remove them.

beefsteaks, eggs, potatoes, bread and coffee, and was provided by the Company. Only a few men were engaged resterday, and the present force of drivers, conductors and stablemen numbers 230 men, fifty of whom went to their homes last night. Five policemen stood guard at the stables last

night, but no disturbance occurred. Assistant Supt. Moulton said at 7 o'clock that at 8.02 the first car would start from the depot, and the Company would run sixty cars all day from Eighty-sixth street to the Post-Office on the Sunday schedule.

The cars would have two minutes' head-That is to say they would be four blocks apart. No trouble was apprehended, though, as the snowflakes began to drop from the lowering sky, Mr. Moulton's face assumed a slightly troubled look.

> An Official Announcement from the Austrian Authorities.

Many People Still Believe There Was a Woman in the Case.

[SPECIAL CABLE TO THE EVENING WORLD.] VIENNA, Feb. 1.- The tragic and mysterious death of Crown Prince Rudolph has worked the people up to a high pitch of excitement.

Now it is officially announced that the Prince committed suicide by shooting himself in the head with a revolver. This announcement does not satisfy the people, many of whom believe there is something in the story that Prince Rudolph was

shot by the husband of a lady who was staying at the Meyerling chateau. There have been so many "official" misstatements that nothing but the fullest investigation will satiate the general curiosity.

The funeral will take place next Tuesday or Wednesday, but nothing definite has yet been decided upon. The Emperor desires that the sarvices be simple. The fact that the coffin containing the body of the Prince was conveyed from Meyerling in a hearse commonly used for paupers has excited considerable comment. The large coffin was too large for an ordinary hearse.

DRY DOCK STABLES STILL THERE.

The Company Feared They Would Be Fired-Fifteen Cars Running at 9 A. M. The stables of the Dry Dock line are still standing on their old site, despite the alarm which stirred in the bosom of Supt. White late last night, when some one in breathless haste came to tell him that

of the road of burning the stables. Supt. White sent word to Capt. Clinchy that he needed a stronger guard about the stables, and the force was increased, while Officers Johnson and McGarry, at the Fourteenth street stables, were warned to keep a sharp eye out for incendiaries.

The story excited the risibles of Master
